

ADP Canada Named One of Greater Toronto's Top Employers for 2021

TORONTO, December 4, 2020: Today, the *Greater Toronto's Top Employers* competition named ADP Canada as one of its top 100 employers for 2021. The HR services and technology leader has been recognized for its progressive programs and policies, which include flexible work hours, telecommuting and paid time off to volunteer.

"This has been a year like no other, and we could not be more thankful for this award and for every single one of our team members," said Holger Kormann, president, ADP Canada. "It's been incredible to watch our employees pull together, working hard for our clients every day, despite all of the challenges the past year has brought. This award is a tribute to the great individuals who have and continue to step up and the great work we've achieved together. Our team is committed to continuing to provide a responsive, flexible and innovative place to work today, tomorrow, and for the years ahead."

The *Greater Toronto's Top Employers* competition honours employers with exceptional human resources programs and forward-thinking workplace policies. Companies are graded on a number of factors, including work atmosphere, benefits, vacation time, employee communications and development opportunities.

"While many of our employees have not been working under the same roof this year, it's commendable to see how well we have continued to operate as highly collaborative teams," said Andrea Wynter, Head of Human Resources, ADP Canada. "We work hard to nurture the talent and careers of our employees and create a sense of purpose and belonging. We're pleased to see the culture we have made every effort to create has not only survived but thrived throughout the pandemic."

The *Greater Toronto's Top Employers* ranking includes 100 businesses across Canada, spanning across all industries, and is considered the benchmark in the Greater Toronto Area for workplace best-practices. More information on the Greater Toronto's Top 2021 Employers can be found here:
