

# Here for you, through it all

Unsteady times call for the steadiest HR and payroll partner. But don't just take our word for it — hear what our Canadian business clients have to say about how we've helped them during these uncertain times with our services, resources, technology and partnership:

The ADP tools and features that made my job easier during this time are my account manager and The Bridge, ADP's online community for clients. My account manager was essential in helping us understand federal and provincial law communications and how best we could utilize them as an organization. The Bridge is a wonderful source of information, and the splash screens with updates upon login have been especially useful.
